Professional Summary

B.Tech Computer Science and Engineering student (expected 2027) with hands-on experience building Flutter applications and connecting mobile interfaces to Python/Flask REST APIs. Interested in software development, mobile app development and Python-based solutions, with project experience in QR-link safety checking, local data persistence and task tracking.

Technical Skills

Languages: Java, Python, C, C++, Dart, HTML, CSS
Frameworks & APIs: Flutter, Django, Flask, REST APIs
Databases & Storage: MySQL, MongoDB, Firebase, SharedPreferences, Hive
Tools: Git, GitHub, VS Code, Android Studio
Concepts: Machine Learning, URL safety classification, mobile application development

Projects

QR GUARD – QR Code Link Safety Checker GitHub Repository
Flutter, Dart, Python, Flask, Machine Learning, REST API, SharedPreferences

- Built a Flutter app for QR-code scanning and manual URL entry, extracting links and sending them to a Python Flask backend through a REST API.
- Integrated the URL safety classification workflow and displayed scan risk results; implemented local scan-history viewing/deletion and in-app link opening with WebView.

Daily Reminder – Offline Task Management & Habit Tracker GitHub Repository
Flutter, Dart, Hive, Android Studio, Git, GitHub

- Developed an offline task-management app with task creation, deletion, completion tracking and configurable challenge durations.
- Integrated Hive for persistent local storage and added progress indicators to support daily tracking and productivity.

Education

B.Tech, Computer Science and Engineering – College of Engineering Cherthala, KTU Expected 2027
CGPA: 7.6/10
Higher Secondary (12th): KPM HSS Poothotta – 92.5%
SSLC (10th): GHSS Perumbalam – 95%

Internship

App Development Intern – Metaloop Global IT Services, Kochi 11–17 Jun 2025

- Completed a 7-day internship focused on practical mobile application development methodologies and workflows.

Certifications & Achievements

- **NPTEL – Biomedical Signal Processing**, IIT Kharagpur | Jan–Apr 2025; 12-week course, consolidated score 48%.
- Successfully completed the National Level Technical Quiz on App Development (Flutter), organized by Genzee Technologies LLP.

Workshops & Training

Machine Learning & Deep Learning (Linnk Academy India / College of Engineering Cherthala, Dec 2025) • AI & LLM Workshop (IEEE Computer Society / IEEE CIS, ηVision IIT Hyderabad & Teklearn, Mar 2025) • COA DECODE 6-Day Bootcamp (IEEE SB SBCE / IEEE CS SBC SBCE, Apr 2025) • Full Stack Web Development (SPACS, College of Engineering Cherthala, Apr 2024) • Career Options & Industry Orientation for Engineers webinar (Genzee Technologies LLP, Jun 2025)
